## Home Economics Meeting.

The home economics department of the Woman's club met Tuesday afternoon at 1:30 at the home of Mrs. Isham for the regular monthly luncheon. Mesdames Isham, Browning, W. J. Mullen and J. M. Clark being the hostesses.

It was a very profitable and enjoyable affair. After the luncheon, "all out of can" was served, the ladies had the pleasure of seeing some very fine imported china, linen, silverware and other family heirlooms both old and new, and it was a privilege long to be remembered.

Those present were: Mesdames Ed Babbitt, Willis Brown, M. G. Fronske, W. A. Campbell, Charles Hillebrandt, Cuthbert Hanna, T. L. Rees, C. O. Lampland, Sam Diamond, Orin Compton, S. O. Thompson, Miss Mouton, Hubert Hill, S. J. Gassman, R. J. Connor, M. D. Drain, L. W. Cress, A. J. Sullivan, Archie Hogan, Henry Albers, Frank Keefe, J. H. Seay, Frank Harrison, E. H. Wheat, G. C. Hutson, Durward McKinney, Mrs. Merritt, R. E. Taylor, Frank Richmond, Miss Beasley and Mrs. Walsh. Mrs. Ray Babbitt's mother from Los Angeles.

The Sunday school board of the Federated church met at the home of the superintendent, A. W. Brown, on Tuesday evening of this week. Twelve members were present. Items of vital interest were presented and discussed. Plans are constantly being projected to make the Federated Sunday school a powerful force for righteousness in the community. The superintendent is a man with a godly vision and is seeking to push every line of Sunday school work. We are constantly faced with the crying need of religious instruction in the minds of our children and youth. We hope and pray that every member of the church will do all within his power to make God's word the food of your soul and see that every child is invited and urged to attend some school of religious instruction. Sunday school begins promptly at 9:45 a. m. All are welcome.

Mr. and Mrs. Merville Mills, who have been visiting with home folks and friends for the past week, went to Kingman Sunday, where Mr. Mills has a position in the bank. They were the recipients of many social events of the week. Thursday afternoon they were entertained at a dinner party at the home of Mr. and Mrs. H. Nelson. In addition to the hostesses and the guests, Mr. and Mrs. Mills, Miss Berchold and Miss Payne and Miss Grace Sandon were present. The teachers of last year at the Normal school gave a reception to Mr. and Mrs. Mills on Friday evening at the president's home on the campus.

A reception was given Saturday afternoon in honor of Mrs. Merville Mills at the home of Mrs. E. C. Mills. Saturday evening the Mills were entertained at a dinner party by Mr. and Mrs. Fred Browning.

A silver tea of St. Margaret's Guild for the building fund for a new parish house was held at Mrs. T. E. Pollock's Wednesday afternoon. A neat little sum was reported from the sales of the afternoon. Soon all the money will be raised for the long-hoped-for new Episcopal parish house.

A dinner party given by the teachers of the Normal school who were here last year to Mr. and Mrs. Merville Mills was held at the home of the president on the Normal campus Friday evening. Mrs. Mills, formerly Miss Helen Sandon, of Corvallis, Oregon, taught last year at the Normal school. Those present were Dr. and Mrs. L. B. McMullen and daughter, Lucetia, and Mrs. Merville Mills, Mr. and Mrs. E. C. Mills, Miss Charlotte Mills, Miss Payne, Miss Berchold, Miss Case, Miss Platz, Miss Wheeler, Miss Boyer, Miss Lintz, Miss Dockstader, Mrs. Hanshue, Mrs. Hanley, Miss Grace Sandon and Mrs. Beck with.

The civics department of the Woman's club will meet at the home of Mrs. Lewis Benedict Saturday a term. Mrs. C. A. Keller will lead, the subject being "Some Phases of Community Service." Miss Berchold has charge of the current events.

There will be a special Christian Endeavor meeting at the Federated church next Tuesday evening. W. Roy Gregg, of Dallas, Texas, southwest field secretary for Christian Endeavor will speak. Mr. Gregg is an interesting speaker and has a message for the young people of Flagstaff.

The Bridge club meets at the home of Mrs. Joe Babbitt this evening.

A piano recital was given last Saturday afternoon by the pupils of Mrs. Wm. Rudd. After the program a social time was enjoyed by games and refreshments.

The Social Service met at Mrs. T. E. Pollock's home on Tuesday afternoon. The next meeting will be next Thanksgiving time at the home of Mrs. Ed Babbitt.

Mrs. E. C. Mills gave a reception in honor of her newly-acquired daughter Mrs. Merville Mills, at her home last Saturday afternoon. About 75 people were present.

Miss Payne and Miss Dockstader poured the tea while Mrs. Nelson and

Miss Grace Sandon served in the dining room.

The children's hour will be held at the city library this coming Saturday afternoon. Here's a good chance for mothers to send their children down or an instructive entertainment. Good clean children stories and pictures suitable to small children form the basis of the afternoon's pleasures.

## WATER POWER IN AMERICA AND EUROPEAN COUNTRIES

Unless the federal government permits private capital to develop the resources of the Grand Canyon, or there is a change in the attitude of eastern congressmen, which is unlikely, the possibilities of the present generation gaining any benefits from the Colorado river through development in the Canyon are very vague. It will gain the necessary interest of the nation some day, to be sure, but, outside of the southwest, it is not a topic of concern.

Forty per cent of the developed water power of the world is in the United States, where water wheels having a capacity of 9,243,000 horsepower have been installed, according to a recent statement of the United States geological survey, department of the interior. The leading states in developed water power are New York, with 1,300,000 horsepower, and California, with 1,111,000. These state totals compare favorably with those for some of the most progressive countries in water power development in Europe, where France leads with 1,400,000 horsepower; Norway has 1,150,000; Sweden 1,200,000, and Switzerland 1,070,000. The largest percentage of power has been developed in the New England states, where the capacity of the water wheels installed is 1,281,000 horsepower and the estimated potential power at low water without storage is 968,000 horsepower. In the Pacific coast states, Washington, Oregon and California, the capacity of water wheels installed is 1,293,000 horsepower and the potential power at low water without storage is 11,500,000 horsepower. The largest water power development in the world is at Niagara Falls, where the plants in operation have a capacity of 870,000 horsepower, of which 385,000 horsepower is on the United States side. The capacity of the plants at Niagara is being increased by 114,500 horsepower in the United States and 300,000 horsepower in Canada. Other large plants are one of 70,000 horsepower on the Mississippi at Keokuk, Iowa, which is transmitted to St. Louis, and two plants aggregating 168,500 horsepower, on St. Maurice river in Canada, from which power is transmitted to Montreal, Quebec, and other cities. Canada ranks next to the United States in water power development, with 2,418,000 horsepower, or over 10 per cent of the world's total.

Europe has one-third of the developed water power in the world. Two plants at Rjukan, in Norway, have a total capacity of 239,000 horsepower, and at Trollhattan Falls the Swedish government has installed a plant of 153,000 horsepower. At Lake Ffully, in Switzerland, the remarkable high head of 3413 feet is utilized. France, Italy, Germany, Norway, Sweden and Switzerland have each developed more than 1,000,000 horsepower.

In Asia, Japan, with 1,000,000 horsepower, and India, with only 150,000 horsepower, are the foremost countries in water power development. New Zealand has developed only 15,000 horsepower, but is rapidly increasing this amount. Australia has practically no developed water power. The island of Java has 56,000 horsepower developed or to be developed by plants under construction. Africa possesses only 11,000 horsepower of developed water power.

The total potential water power of the world is estimated at 439 million horsepower at low water, of which 62 million horsepower is in North America and 28 million in the United States. Africa is richest in undeveloped water power, with 190 million horsepower; Asia has 71 million horsepower; South America 54 million horsepower; and Europe 45 million horsepower.—Prescott Courier.

San Francisco man asks divorce because she had her hair. Real love laughs at locks bobbed.

## A Leader In New Law Cabinet

The Marquis of Salisbury, who has been appointed Lord President of the Council in the new cabinet headed by Bonar Law. The Marquis, who is one of England's wealthiest landed proprietors, owning over 20,000 acres, is noted for his statescraft and diplomacy. He has held many important posts among which were Under-Secretary for Foreign Affairs; Lord of the Privy Seal; Chairman of the Church Parliamentary Committee, and others.

## "PASS THE BUCK" ON JAZZ

It is almost impossible to find one who is to blame for jazz dancing. Really, this is a question which many consider by no means inconsequential. At first thought, one might pin the responsibility on the dancing teachers, but if you ask them, they will shrug their tuxedoed shoulders in a rhythmic manner and plead not guilty. It's the fault of the composers, they will tell you, "passing the buck" in double-quick time.

The denial of the composers is sharp, their contradiction flat and the explanation of the why of jazz music natural—they give the public what it wants.

Seemingly the public is divided in its opinion on this big question. Some say the younger generation is to blame. Jazz dancing and jazz music are to repeat their own words, just exactly what one might expect when the youth of the land gads about in sporty automobiles, shows contempt for Mrs. Grundy's ideas and shows a determination to do everything in a fast and shabby way.

The manner in which the dancing instructors put the blame on the chaps who create tunes is exemplified by R. W. Viny, president of the American Society of Dancing Teachers.

"Dancing is wholly a matter of music," he said. "The reason a waltz is out of date is because there is no Strauss today to compose a real one and make the people glide to it. When good music is composed, good dancing will result. As long as you have jazz music you will have jazz dancing."

## LOOK INTO WELSH HISTORY

Sir Alfred T. Davies, who has set some hundreds of Welsh children on the interesting work of compiling a record of Welsh rural lore—a sort of new Domesday book—has been inquiring the reason for the curious fact (recorded by one of the new chroniclers) that while Welsh cows are invariably given Welsh names, Welsh horses are as invariably given English names.

The explanation, says the Manchester Guardian, will be found a long way back in history. The first owners of horses in Wales were the nobles, many of them foreigners from across the border. Their horses naturally had English names and as the native Welshman, too, began to use horses instead of oxen, he gave them the familiar names to which he had become accustomed.

So it is that to this day horses in Wales bear such names as Boxer and Duchess, while the cows remain as true Welsh, with names like Siron and Pengwar.

It is estimated that not enough people are saving for Christmas.

Fuel hint: When you get a cinder in your eye run home and put it in the coal bin.

Ghent, Belgium, stands on twenty-six islands, which are connected with each other by eighty bridges. The city is noted as the birthplace of Charles V and John of Ghent. It is associated with American history by being the scene of the treaty of Dec. 24, 1814, which terminated the second war between the United States and England.

## DID YOU EVER STOP TO THINK—

That the future holds wondrous certainties for a live city.

THAT a marvelous development is ahead of a city that has a spirit of progressiveness?

THAT a boosting spirit will make a citizen feel better, look better and make him better fit to do his share of city-building?

THAT it requires no superior wisdom to know that?

THAT everyone has heard of the boosting spirit; it is that indefinable spirit that makes citizens co-operate in a way that builds greater cities?

THAT in cities where everybody works and nobody shirks you will find that boosting spirit, a spirit of hospitality, co-operation and pen all combined.

THAT a reputation as a GOOD STARTER is easy to get, but a reputation as a GOOD FINISHER is what counts?

## THE BROKEN CRANKSHAFT

OCCASIONED by bad bearings, getting out of line, result: a smashed crank case, expensive replacements. Have your car gone over by me today and get estimate on putting it in A-1 order—NOW.

## Christmas Gifts for Men

### Sweaters

"Thermo" coat style Sweater, virgin wool, 2-pocket style, several colors, \$6.00

"Lamb Knit," 4-pocket style, belted back, all-wool, fine selection of colors, \$7.50

"Travelo" heavy weave, 4-pocket, pure worsted, in the most wanted colors, \$8.50

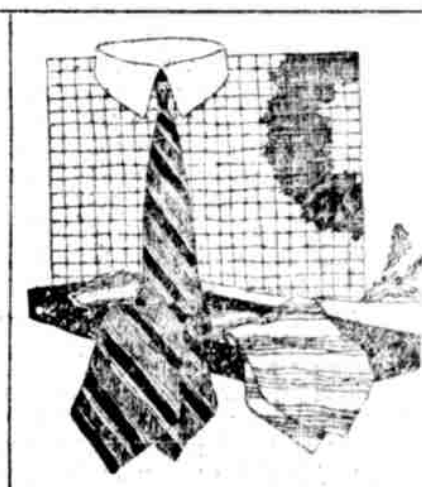

Heavy knit "rough necks" in pull over and coat styles, all colors, \$9.85

### Bath Robes

All patterns and very attractive colors, \$5.00 to \$15.00

The better grades have girdle or heavy belt, 3 large patch pockets and bound with silk cord.

### TIES

Fancy knit ties in all colors and combinations, 95c

New Grenedine knit ties in all the most wanted colors and packed in individual boxes, \$1.25

Others at \$2.00 and \$2.50

"Eighth Wonder of the World," a wonderful new silk tie, which must be seen to be appreciated, at \$1.00 and \$1.50

### MEN'S HOSE

Armor Plate brand, black and brown, very fine silk fibre, 65c

Armor Plate brand, pure silk, double heel and toe, all colors, 95c

Fancy silks, some with clocks and stripes, different weights and all colors, \$1.15 and \$1.25

Wool dress hose, all colors, 85c

Silk and wool-mixed, 85c

Imported English, rib dress hose, in dark gray, \$1.25

Heavy rib imported English hose, with fancy clock and assorted colors, \$1.50

Pure cassimere sock with silk stripe, \$1.65

Pure cassimere with fancy silk clock, \$2.00

### Fancy Shirts

Very fine Madras, silk stripes, Wilson Bros. make, \$3.00

Wilson Bros. make, silk and linen in assorted patterns, very well made, \$5.00

Pure silk, crepe de chine, broadcloth and jersey, up to the minute, \$6.85

### Gloves

"Raywell" make dress gloves, cape leather, dark brown, silk lined, \$2.50

"Raywell" make, Cardovan color, best grade of leather, and very much the thing for dress wear, \$3.00 and \$3.50

"Raywell" make, wool lined dress gloves, for winter wear, warm and dressy, \$2.00 and \$2.50

Raywell make, fur lined, \$5.00

## ORPHEUM THEATRE

TONIGHT—(FRIDAY)

Do you know that you can pawn a baby?

It's so; also that babies grow up, sometimes, to be very beautiful girls.

Irvin S. Cobb knew these facts—from them he wove a wonderful heart-interest story. Now made into a wonderful picture.

A Harry Beaumont Production. Scenario by Rex Taylor.

Viola Dana in The \$5 Baby

Two Reel Christie Comedy

Lower floor reserved, 50c; balcony, 35c; children, special, 10c.

Sunday, November 26

NANOOK OF THE NORTH

A Story of the Snowlands

—Also—

Bull

Montana

—In—

"A PUNCTURED PRINCE"

Night, lower floor reserved, 50c; balcony, 35c; children, 25c; matinee 3 p. m. 10c, 25c; 35c.
